TECHNICAL SPECIFICATIONS

I- CONTEXT AND JUSTIFICATION

I.1. The Specially Protected Areas Regional Activity Centre

The Specially Protected Areas Regional Activity Centre (SPA/RAC) was established by the Contracting Parties to the Barcelona Convention in order to assist the Mediterranean countries in implementing the Protocol concerning Specially Protected Areas and Biological Diversity in the Mediterranean (SPA/BD Protocol) of the Barcelona Convention². Tunisia has been hosting the Centre since its establishment in 1985.

The Centre works under the auspices of the United Nations Environment Programme / Mediterranean Action Plan (UNEP/MAP) - Barcelona Convention Secretariat, based in Athens, Greece.

SPA/RAC's main objective is to contribute to the protection, preservation and sustainable management of marine and coastal biological diversity in the Mediterranean and, in particular, the creation and effective management of marine and coastal areas of particular natural and cultural value and the conservation of threatened and endangered species of flora and fauna in the Mediterranean.

For more information, please consult: www.spa-rac.org.

I.2. The Integrated Monitoring and Assessment Programme of the Mediterranean Sea and Coast and related assessment criteria (IMAP)

In 2008, the Contracting Parties to the Barcelona Convention, through COP 15 Decision IG.17/6, committed to progressively apply the Ecosystem Approach (EcAp) to the management of human activities affecting the Mediterranean marine and coastal environment. This approach aims to achieve Good Environmental Status (GES) through clearly defined ecological objectives, targets and indicators, as further operationalized by Decisions IG.20/4 and IG.21/3.

The Ecosystem Approach was reaffirmed through Decision IG.26/3 (2023), endorsing the 2023 Mediterranean Quality Status Report (MED QSR). A key operational pillar of EcAp is the Integrated Monitoring and Assessment Programme (IMAP), adopted through COP 19 Decision IG.22/7 in 2016. IMAP establishes harmonized monitoring methodologies and Common Indicators across three clusters.

Following the implementation cycle and lessons learned, IMAP and the Ecosystem Approach Roadmap were updated through Decision IG.27/6 (2025) and further strengthened, including the adoption of new and upgraded indicators, and were formally endorsed at COP 24 (Cairo, 2024), reinforcing the regional commitment to achieving GES by 2035.

IMAP is guided by overarching principles including adequacy, coordination, interoperability, adaptive monitoring, risk-based assessment and the precautionary principle. Data are reported through the IMAP Info System, ensuring harmonized and comparable regional assessments

In line with:

- Decision IG.17/6: "Implementation of the Ecosystem Approach to the management of human activities that may affect the Mediterranean marine and coastal environment".
- Decision IG.20/4: "Implementing MAP ecosystem approach roadmap (Mediterranean Ecological and Operational Objectives, Indicators and Timetable for Implementing the Ecosystem Approach Roadmap".
- Decision IG.21/3: "Ecosystem Approach including adopting definitions of Good Environmental Status (GES) and Targets".

- Decision IG.23/6: “2017 Mediterranean Quality Status Report (MED QSR)”.
- Decision IG.24/4: “Assessment Studies” (Annex V: Roadmap and Needs Assessment for the 2023 MED QSR)
- Decision IG.25/3: “Governance” (Annex I: Governance Mechanism for the Implementation of the Ecosystem Approach in the Mediterranean).
- Decision IG.25/10: “MAP Data Policy”.
- Decision IG.26/3: “The 2023 Mediterranean Quality Status Report (MED QSR) and a Renewed Ecosystem Approach Policy in the Mediterranean”.
- Decision IG.27/6 : ” Ecosystem Approach (EcAp) Policy and Roadmap 2026-2035 and Integrated Monitoring and Assessment Programme for the Mediterranean Sea and Coast (IMAP)”.

the Contracting Parties have updated or developed their national monitoring programmes based on the IMAP Common Indicators, grouped into three clusters: Biodiversity and Non-Indigenous Species (NIS), Pollution and Marine Litter, and Coast and Hydrography. IMAP's 43 Candidate Common Indicators and Common Indicators focus on state and impact indicators.

I.3. Marine Litter MED PLUS Project

The Marine Litter MED PLUS Project (2024–2027) builds on previous Marine Litter MED initiatives implemented since 2016 and aims to further support the implementation of the updated Regional Plan on Marine Litter Management in the Mediterranean. The project focuses particularly on Southern Mediterranean Contracting Parties, including Libya.

Its overall objective is to reduce and prevent marine litter generation through the expanded implementation of key reduction and prevention measures, while strengthening monitoring and assessment under IMAP Ecological Objective 10 (EO10 – Marine Litter), including Common Indicators 22 and 23 and the upgrade of Candidate Indicator 24.

Implemented by the UNEP/MAP-Barcelona Convention Secretariat and its Components (MED POL, SPA/RAC, SCP/RAC, and REMPEC), the project contributes to the UNEP/MAP Mid-Term Strategy 2022–2027. It is funded by the European Commission and co-financed by the Mediterranean Trust Fund.

The project delivers results in three main areas: strengthening National Action Plans, advancing IMAP EO10 monitoring and assessment, and enhancing regional and interregional cooperation on marine litter.

II- OBJECTIVE

The objective of this consultancy is to ensure technical coordination, supervision of the selected NGOs, data compilation, quality control, analysis, and preparation of national deliverables related to IMAP CI22 and CI23 under the ML MED PLUS project in Libya. The National Expert will provide continuous technical guidance and oversight to the NGOs to ensure compliance with UNEP/MAP guidelines and IMAP reporting standards.

Under the Marine Litter MED PLUS project, the selected NGOs will implement Adopt-a-Beach (AaB – IMAP CI22) monitoring at the designated beaches (Western Libya (Kaam Beach, Mitiga 1, Mitiga 2, Central Tripoli Beach, and Janzour Beach); Central Libya (Shash Beach and one additional beach in the Sirte area); and Eastern Libya (one relatively pristine beach and one impacted beach influenced by a nearby river in El Baida)) and Fishing-for-Litter (FfL – IMAP CI23) activities in the selected ports (Zliten, Tripoli, and Sirte). For AaB, NGOs will conduct quarterly beach litter surveys in line with UNEP/MAP guidelines, ensure standardized data collection and documentation, and submit datasets for validation. For FfL, NGOs will coordinate with local fishermen and port authorities to organize litter collection from fishing activities, record quantities and types of waste, and support proper waste handling and reporting.

Each NGO will also organize at least one awareness-raising activity. All activities will be carried out under the technical supervision of the National Expert and in coordination with the Ministry of Environment and SPA/RAC

III- TASKS TO BE UNDERTAKEN

Under the supervision of SPA/RAC and in coordination with the Ministry of Environment, the National Expert shall:

1. Ensure technical supervision, follow-up, and guidance of the selected NGOs implementing Adopt-a-Beach (CI22) and Fishing-for-Litter (CI23) activities, including QA/QC of collected data.
2. Compile, validate, and report AaB (CI22) and FfL (CI23) data using the agreed IMAP InfoSystem templates.
3. Conduct analyses against UNEP/MAP Baseline Values (BV) and Threshold Values (TV) for CI22 and CI23.
4. Develop or update local management plans for beach marine litter and for Fishing-for-Litter in ports.
5. Assess the national regulatory framework related to marine litter and waste collection in fishing ports.
6. Ensure coordination with the Ministry of Environment, SPA/RAC, and relevant stakeholders, and contribute to interim and final technical reports.

VI -EXPECTED DELIVERABLES

1. **Deliverable 1:** Work plan and methodology (2 weeks after contract signature).
2. **Deliverable 2:** Compiled and validated CI22 and CI23 datasets (31 Dec 2026 & 31 April 2027).
3. **Deliverable 3:** Draft analytical report (CI22 & CI23) including BV/TV assessment (30 April 2027).
4. **Deliverable 4:** Draft beach marine litter management plan (30 March 2027).
5. **Deliverable 5:** Draft FfL management plan and regulatory assessment (30 March 2027).
6. **Deliverable 6:** Final consolidated technical report including updated management plans (31 May 2027).

All deliverables shall be submitted in English

VII- SKILLS AND EXPERIENCE REQUIRED OF CONSULTANT

One (1) consultant is needed to this assignment with the following profile requirements:

- Advanced university degree (MSc or PhD) in marine biology, environmental sciences, marine management, or related field.
- Proven experience in marine litter monitoring and assessment.
- Good knowledge of UNEP/MAP EcAp process and IMAP EO10 (CI22 & CI23).
- Experience in data analysis and environmental reporting.
- Familiarity with Libyan environmental regulatory framework is an asset.
- Strong analytical and drafting skills in English

- 60 % will be paid upon submission of final version of all deliverables and after the review and approval of SPA/RAC.
- 10% will be paid upon issuance of the final acceptance certificate by SPA/RAC, confirming that the service provider has fulfilled all contractual obligations and duties to the satisfaction of SPA/RAC.

All payments will be made by bank transfer after the receipt of an invoice from the contractor. Payments shall be made to a bank account held by the bidder in his/her resident country and where he/she pays the taxes.

ARTICLE 7– EVALUATION PROCEDURE

The evaluation will be based on combined technical and financial criteria as follows:

7.1. Technical evaluation

The technical offer(s) will be first examined, while the financial offer(s) remain sealed.

Applications will be evaluated based on the following criteria:

- (i) Individual consultant(s) experience and diploma;
- (ii) the methodology proposed for conducting the mission, and
- (iii) the planning and detailed time schedule (including a chronogram of intervention).

		Criteria	Scoring
Experience		Proven experience in environmental sciences and marine management.	<u>30 points maximum</u> (10 points/study)
		Proven experience in marine litter monitoring and assessment, data analysis, and the development of management plans	<u>20 points maximum</u> (10 points/study)
Diploma		The titles of Master or PhD in marine biology or environmental sciences, geography, economics, social sciences, political science, law, development studies or related discipline	<u>10 points maximum</u>
		A university degree in the abovementioned or related disciplines	5 points
		No university degree in the above-mentioned or related disciplines	0 point <i>(In this case the offer is eliminated)</i>
The methodology proposed for conducting the mission, the planning and detailed time schedule (including a chronogram of intervention)	a. The methodology proposed for conducting the mission	Methodology clearly presented, well developed and meets the study terms of reference and objectives	<u>20 points maximum</u>
		Methodology clearly presented, fairly well developed and meets the study terms of reference and objectives	10 points
		Methodology not well developed but meets the terms of reference and objectives	5 points
		Methodology not clearly presented and does not meet the study terms of reference and objectives, or No methodology presented	0 point (in this case, the tender is eliminated)
	b. the planning and detailed time schedule (including a chronogram of intervention)	Realistic planning clearly presented, coherent with the time schedule considering the requested time for reports validation and with the chronogram of intervention	<u>20 points maximum</u>
		Realistic planning but more or less well presented, fairly coherent with the time schedule and with the chronogram of intervention	10 points
		Planning unclearly presented, doesn't respect the deadline, or no planning, or no time schedule or no chronogram of intervention	0 points (in this case, the tender eliminated)
Total score (100 points maximum)			... points

Any offer that has not attained the minimum score of 80 points will be eliminated.

In the event of no offer obtains 80 points or more, the call for consultancy will be declared unsuccessful.

7.2. Financial evaluation

Once the technical evaluation has been completed, the financial offers of applicants that have not been eliminated during the technical evaluation will be examined.

The evaluation committee will check that the financial offers do not contain any obvious arithmetical errors. Any possible obvious arithmetical errors will be corrected, and the corrected figures will be taken into consideration.

The evaluation committee will then proceed to a financial comparison. The lowest financial offer that is judged acceptable will receive 100 points. The other offers will be attributed a score based on the following equation:

$$\text{Financial score} = (\text{amount of the lowest accepted offer} / \text{amount of the considered offer}) \times 100$$

7.3. Conclusions of the evaluation committee

The choice of the best offer is achieved by weighting the technical and financial scores using a distribution key of 80/20 basis. To this end:

- The technical score will be multiplied by a coefficient of 0.80.
- The financial score will be multiplied by a coefficient of 0.20.

The weighted technical - financial scores thus calculated will be added to ascertain the offer with the best technical and financial score.

If two offers obtain the same weighted technical-financial scores, preference will be given to the applicant in the following order:

- having obtained the best technical score.
- having obtained the best score for methodology.
- having obtained the best total score for experience and qualifications of the consultant.

ARTICLE 8 – MONITORING, CONTROL AND VALIDATION OF THE WORK

The consultants will work under the supervision of SPA/RAC. The consultants will submit draft version of each deliverable as indicated in section 5 (Deliverables and deadlines). The consultants will submit the final version of deliverables considering the SPA/RAC and Concerned CPs inputs as indicated in section 5 (Deliverables and deadlines) of the technical specifications.

ARTICLE 9- DURATION OF THE CONTRACT

The contract implementation will need about 22 (twenty- two) working days (WD) starting from the date of the contract signature, until the completion of all tasks no later than 31 May 2027, with the following tentative schedule:

<p>Deliverable 4: Draft Beach Marine Litter Management Plan</p> <p>Submission of a draft local management plan for beach marine litter (CI22).</p>	30 March 2027.
<p>Deliverable 5: Draft Fishing-for-Litter (FfL) Management Plan and Regulatory Assessment.</p> <p>Submission of a draft FfL management plan for ports and fishing shelters, including assessment of the national regulatory framework.</p>	30 March 2027.
<p>Deliverable 6: Final Consolidated Technical Report</p> <p>Submission of the final consolidated technical report including validated datasets, final analytical assessment, and finalized management plans.</p>	31 May 2027.

Additional online or in-person coordination and technical meetings may be organized during the implementation period, in which the National Expert may be requested to participate and provide technical support. In case of travel required to attend such meetings outside the scope and budget of this contract, travel and subsistence costs shall be covered either through a separate budget allocation or directly by the organizing entity.

Furthermore, a six-month extension of the project may be considered, subject to approval during the Project Steering Committee meeting scheduled for the end of April 2026. Should this extension be approved, the additional period will be financed accordingly. In the event that the project is not extended, all activities and related deliverables under this contract shall be completed no later than 31 December 2026.

ARTICLE 10 – PENALTY

In the absence of completion by the tenderer of the services at his charge within the contractual deadlines envisaged in Article 9 (Deadline for the execution of the mission), it will be applied as of right and without notice, a penalty of one three hundredth (1/300) of the total amount of the contract for each calendar day of delay.

The amount of the late penalties will be deducted from the accounts. The amount of the penalties is capped at 5% of the total amount of the contract. When this limit is reached, SPA/RAC reserves the right to terminate the contract at the service provider's fault, in accordance with Article 15 (Cancellation conditions), and without that the service provider can raise disputes or claim any compensation.

ARTICLE 11 – INTELLECTUAL PROPERTY RIGHTS, OWNERSHIP OF DOCUMENT

All legal rights throughout the world in works or inventions created by the provider in connection with consultancy will remain the property of SPA/RAC. The provider recognizes that such rights include, but are not limited to, copyright and other rights in written material, sound and video recordings (including films), maps, photographs, etc. as well as patents and other rights in inventions, and that the said rights enable SPA/RAC to control and authorize, where appropriate, all publications, publicity material and other exploitation of the said works and inventions.

All the plans, drawings, software, photos, videos, data, presentations, study reports and any other documents, elaborated and submitted by the provider to SPA/RAC for the execution of the present contract, will become and remain the property of SPA/RAC, and the consultant will submit all of them to SPA/RAC.

The provider does not have the right to use or copy the products resulting from this consultancy whatever their form or their media, without the explicit written non objection of the SPA/RAC.

ARTICLE 12 – ARBITRAGE, DISPUTE SETTLEMENT

Every dispute arising from or in connection with this contract execution shall be solved by way of amicable negotiations by the parties. The contract is deemed to have been made in Tunisia and to be subject to Tunisian law. In case of dispute, the Court of Tunis is competent.

ARTICLE 13 – LIABILITY AND INSURANCE

SPA/RAC does not accept any liability for acts of third parties, accidents, sickness, losses of any kind, however caused arising during the implementation of the specific actions and the production of the relative outputs expected. The bidder confirms that themselves or any involved staff will be covered by appropriate insurance.

ARTICLE 14 – FORCE MAJEURE

Force majeure means any event outside the control of a party so that it is impossible for one party to carry out his obligations or the implementation of these obligations becomes so difficult that it is considered to be impossible to carry them out under such circumstances.

The party which invokes force majeure must inform its co-contractor within seven (7) days of its occurrence so that the contractual deadline will be suspended with a joint agreement between the parties for the period which is covered by the case of force majeure.

SPA/RAC has a right to assess the circumstances of the impediments invoked by the holder as a case of force majeure to see if they are convincing, and if this should not be the case, then the days of discontinued work will be accounted for as days of delay.

Failure by either party to fulfil any of its contractual obligations does not entail a contract termination or failure to fulfil its contractual obligations if such a failure is due to a case of force majeure, if the party that finds itself in such a situation has done the following:

- a. has taken all the reasonable precautions and measures to allow it to comply with the terms and conditions of the contract; and
- b. has informed the other party of the event, as soon as possible. Any timeline given to a party for the execution of its contractual obligation will be prolonged by a period which is equal to the period during which that party was prevented from fulfilling its obligations.

Any timeline given to a party for the execution of its contractual obligations will be prolonged by a period which is equal to the period during which that party was unable to fulfil its obligations due to the case of force majeure.

ARTICLE 15 – CANCELLATION CONDITIONS

SPA/RAC could cancel this contract through a notification in writing addressed to the tenderer after one of the events indicated in the following paragraphs:

- a) no respect of the deadline of the execution in application of Article 9 (Deadline for the execution of the mission);
- b) in the case described in the Article 10 (Penalty) when the amount is capped at 10% of the total amount of the contract;
- c) non-conformity to the content of the service listed in the technical specification of the present tender documents;

- d) If the tenderer goes bankrupt or into receivership;
- e) If, after a case of force majeure, the holder is unable to execute a substantial part of the Services for a period equal to at least sixty (60) days;
- f) If the tenderer was involved in corruption or fraudulent manipulations in order to obtain the contract or during the execution of the contract. For the purpose of the clause: a person is guilty of "corruption" if he/she offers, gives, solicits or accepts any kind of advantage in order to influence the action of a public official during the selection or the execution of the contract; and undertakes "fraudulent manipulations" which distort or denature the facts so as to influence the selection or the execution of the contract to the detriment of the borrower; by "fraudulent manipulations" is meant any agreement or collusive manipulation of the tenderers (before or after submitting the proposals) so as to artificially maintain the prices of the tenders at levels which do not correspond to prices which would have resulted from free and open competition and which deprive the borrower of the advantages of free and open competition; or
- g) If SPA/RAC, on its own initiative and for any reason whatsoever, decides to terminate the contract.

ARTICLE 16 – CONFLICT OF INTERESTS

15.1. Prohibition of incompatible activities

The contract tenderer, the personnel and agents must not engage, directly or indirectly, during the contract implementation period, in professional or commercial activities which could be incompatible with the activities with which they have been entrusted due to the present contract.

15.2. Non-participation of the holder and his associates in certain activities

The tenderer and his associates are prohibited, during the contract duration and at the end of the contract period, to provide good, works or services means for any project stemming from the Services or closely connected with the present contract services (except for the implementation of the present contract services and their continuation).
